BIDS TO PICK

Description:
Being able to sell to DLSU community through auctions

User Registration and Login
First time users can register by inputting their full name, DLSU email, password, and phone number. The user's DLSU email will serve as their username. Once the user account has been created, the user can log in with their DLSU email and password. Users may log out any time by clicking the logout button.

User Profile
The user profile page contains the user's information such as their full name, DLSU email, default picture, phone number, and list of items available for bidding. Users can view and edit their profile by clicking the profile tab. Users are able to view the profile of other users by clicking on their profile picture or e-mail.

Posting items
1. Users are required to add a photo of their item, its starting price, and its description.
2. The cut-off date and time must also be provided by the user.
3. Being able to edit the post during different circumstances.

View posted items
1. Users are able to see the details of the items they are viewing: user who posted the item, photo, description, starting price, and cut-off date.
2. Users can also view the current bids on the item.

Bidding on items
1. You can bid money only if the price that is already posted is higher.
2. Once the user already bids on an item, the user cannot delete nor edit their bid along with the bid price anymore.

Search System
1. Searching for a specific item is possible.
2. Searching specific users is also possible.

Chatting System
1. Redirecting them towards email
